MEASUREMENT CHART

Parameters vs sizes (cm)		One size	Tolerance
Head perimeter		48,5-60,5	
A	Length	63,5	+/- 1
B	Superior width (measured at 9,5 cm from the top)	32	+/- 1
C	Inferior width	71	+/- 1
D	Opening width	10	+/- 0,5
E	Opening height	10	+/- 0,5

For non-sterile environments, protective suits need only meet standards, based on standard 13795-1: 2019. Only standard performance requirements (and not high performance) were considered, as they are sufficient for the use of these materials in environments exposed to Covid-19.
